(3) Subject to subsection 5 in the second, third, fourth and fifth years following annexation or change-in-status,

- (a) the annexation grant per pupil shall be paid on the excess of the average daily enrolment of the board of the urban municipality subsequent to annexation over the average daily enrolment of the urban municipality in the year preceding annexation; and

(2) The enlargement grant per pupil shall be the excess of the grant per pupil calculated on behalf of the former boards for the year in which the union took place over the grant that would have been payable to

the newly-formed board for the year in which the union took place if the union had occurred one year earlier, ascertained in each case by dividing the grant, exclusive of the enrolment growth grant, the northern assistance grant and the grant on recognized extraordinary expenditure, by the average daily enrolment.

(4) In the second and third year following the union, the enlargement grant per pupil shall be 100 per cent of the amount as determined in subsection 2.

(5) In the fourth year following the union, the percentage of the enlargement grant per pupil shall be reduced by $33\frac{1}{3}$ and in each year thereafter by $33\frac{1}{3}$ for each additional year.

(6) Subject to subsection 7 where, at the time of union, there were outstanding debentures for one or more school buildings in the united area, the debt charges, to the extent that they are eligible for grant in the year in which the union took place, shall, except in the year in which the union took place, be eligible for grant at the rate by which the rate applicable to the former board in the year in which the union took place exceeds the effective rate applicable to the board of the enlarged area in the current year.

(7) For purposes of determining the rate of grant applicable to the former board in the year in which the union took place, as required in subsection 6, capital expenditures from the revenue fund included in recognized extraordinary expenditure shall not exceed the product of \$1000 and the number of class-room units as determined in subsection 4 of section 13.

PART VIII

FINANCE COMPANIES

59.—(1) A receipt shall not be issued for a prospectus of a company, other than a company registered under *The Loan and Trust Corporations Act*, doing business primarily as an industrial company, investment company, mining company, or mutual fund company, if that company has as part of its name the word "acceptance", "credit", "finance", "loan" or "trust".

(2) Subsection 1 does not apply to,

- (a) a company that has the words "investment trust" as part of its name before this section comes into force; or
- (b) a company that includes on the face or cover page of the prospectus a statement, satisfactory to the Director, indicating the nature of the business actually carried on.

60. Upon receipt of a written request from any debt security holder of a finance company, the finance company shall supply to the debt security holder a copy of the most recent comparative financial statement filed with the Commission pursuant to subsection 1 of section 120 of the Act, and, where applicable, the comparative interim financial statement filed with the Commission pursuant to subsection 1 of section 129 of the Act.

61.—(1) A receipt shall not be issued for a prospectus of a finance company relating to a debt security not issued under a trust indenture unless there is clearly set forth on the face or cover page of such prospectus a statement to the effect that such debt security is not issued under a trust indenture.

(2) Without limiting the power of the Director under section 61 of the Act, if it appears to the Director that the designation of a preferred share or a debt security referred to in any prospectus of a finance company filed pursuant to Part VII of the Act is misleading, the Director may order the Registrar not to issue a receipt for such prospectus unless,

- (a) such designation is amended to make it, in the opinion of the Director, not misleading; or
- (b) there is included on the face or cover page of the prospectus a statement that when read with such designation makes such designation, in the opinion of the Director, not misleading.

62.—(1) Every finance company, in addition to any other requirements, shall file with the Commission,

- (a) annually, within 170 days of the end of its financial year,
 - (i) a report prepared in accordance with Form 17, and
 - (ii) such Canadian Sales Finance Long-Form Report as is adopted by the Investment Dealers' Association of Canada and the Federated Council of Sales Finance Companies and as is deemed appropriate by the Commission;
- (b) semi-annually, within sixty days of,
 - (i) the end of its financial year, and
 - (ii) the date to which the interim financial statement is made up,
 a statement prepared in accordance with Form 18; and
- (c) such other forms as are deemed appropriate by the Commission.

(2) The Commission upon application by a finance company may determine and rule that the mode of operation of the applicant is such that some or all of the reporting provisions of the Canadian Sales Finance Long-Form Report are not applicable and answers thereto need not be filed with the Commission, in which event the Commission shall designate the scope and nature of the report to be filed, such determination and ruling is final and there is no appeal therefrom.

(3) Every report referred to in clause a of subsection 1 shall be accompanied by the report of an auditor, stating that the auditor,

- (a) has reviewed the report of the finance company and, during the course of such review and the examination of the company's financial statements, has obtained no knowledge to indicate that the company's report is not properly stated;
- (b) during the course of the review of the finance company's report and the examination of the financial statements, has found nothing that leads him to believe that the company is not operating in conformity with all its borrowing agreements, as at the date of the examination; and
- (c) has found no transactions of the finance company that have come to his attention that have not been within the powers of the company.

(4) Three complete copies of the report required by clause a of subsection 1, including exhibits and all papers and documents filed as a part thereof, shall be filed with the Commission,

and at least one complete copy shall be filed with the Toronto Stock Exchange if any capital security is listed thereon.

(5) At least one of the copies,

(a) filed with the Commission; and

(b) filed with the Toronto Stock Exchange,

shall be manually signed and any unsigned copies shall be confirmed.

63.—(1) The Commission may in its discretion direct that the issuance of a receipt for a prospectus of a finance company be refused until such time as the company proposing to distribute securities to be affected by the prospectus delivers or causes to be delivered to the Commission undertakings, satisfactory to the Commission, to file the reports required under section 62, in which undertakings the company and such of its directors and officers and associates as the Commission may designate undertake to comply with the terms and conditions of section 62 or such of the provisions of section 62 as the Commission may specify.

(2) The Commission may in its discretion, if satisfied that an undertaking given under subsection 1 has not been complied with, direct the Registrar either to refuse to issue a receipt for a prospectus relating to securities of the finance company that previously delivered an undertaking to the Commission, or refuse to issue such receipt unless the company and such of its directors and officers, or associates, as the Commission may designate have agreed to comply with such terms and conditions as may be imposed by the Commission.

PART IX

TRUSTEE AND TRUST INDENTURE PROVISIONS

64. A copy of the trust indenture under which capital securities are issued shall be deposited with the Commission.

65. Trust indentures to which a finance company is a party as an issuer or guarantor of a capital security and trust indentures that are expressed to be governed by the laws of Ontario shall contain or, if they do not, shall be deemed to contain provisions substantially to the following effect:

1. In the exercise of the rights, duties and obligations prescribed or conferred by the terms of the trust indenture, the trustee shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.
2. A person shall not be appointed a trustee under a trust indenture if a conflict of interest exists in the trustee's role as a fiduciary thereunder, and a trustee under a trust indenture shall resign from office in the event that a conflict of interest subsequently arises.
3. In the exercise of his rights, duties and obligations, the trustee may, if he is acting in good faith, conclusively rely, as to the truth of the statements and accuracy of the opinions expressed therein, upon certificates or opinions

conforming to the requirements of the trust indenture if the indenture contains provisions complying with section 66.

4. The trustee shall be required to give to the holders of capital securities issued under the trust indenture, within thirty days after the occurrence thereof, notice of every event of default arising under the trust indenture known to the trustee unless the trustee in good faith determines that the withholding of such notice is in the best interests of the holders of the capital securities and so advises the finance company, and the Commission in writing.

66.—(1) A trust indenture to which this Part applies shall contain provisions substantially to the following effect:

1. The finance company that is the issuer or guarantor of the capital securities issued under the trust indenture shall furnish to the trustee evidence of compliance with every covenant or condition specified in the trust indenture relating to,

(a) the certification and delivery of capital securities under the trust indenture;

(b) the release or release and substitution of property subject to any mortgage, charge, lien or other encumbrance created by the trust indenture;

(c) the satisfaction and discharge of the trust indenture;

(d) the issuance of additional capital securities thereunder; and

(e) any other action or step required to be taken by the trustee under the trust indenture or as a result of any obligation imposed by the trust indenture.

2. Evidence of compliance referred to in item 1 shall consist of,

(a) statutory declarations made by officers of the finance company authorized by the trust indenture stating that the covenant or condition has been complied with in accordance with the terms of the trust indenture;

(b) an opinion of a solicitor that the covenant or condition has been complied with in accordance with the terms of the trust indenture; and

(c) in the case of a covenant or condition compliance with which is subject to the review or examination by auditors or accountants, an opinion or report of the auditor of the finance company or of an accountant acceptable to the Commission, in each case approved by the trustee, as to the accuracy or reliability of the statements required to be reviewed or examined and whether or not the statements have been made in accordance with the terms of the trust indenture.

3. A statutory declaration, opinion or report required under clause *a* of item 2 shall include,

- (a) a statement by the person making or giving such statutory declaration, opinion or report that he has read and is familiar with the covenant or condition;
- (b) a brief statement of the nature and scope of the examination or investigation upon which the statements or opinions contained in the statutory declaration, opinion or report are based;
- (c) a statement that, in the belief of the person making or giving the statutory declaration, opinion or report, he has made such examination or investigation as is necessary to enable him to express an opinion whether the covenant or condition has been complied with; and
- (d) a statement whether in the opinion of such person the covenant or condition has been complied with.

- (2) Nothing in this section prevents the inclusion in a trust indenture of provisions requiring evidence of compliance with covenants or conditions in addition to those specified in this section.

67. A trust indenture to which this Part applies shall not contain any provision relieving the trustee from liability arising thereunder, except that under the terms of the trust indenture the trustee may conclusively rely, as to the truth of the statements and the accuracy of the opinions expressed therein, upon statutory declarations, opinions or reports conforming to the requirements of section 65 if the trustee acts in good faith and examines the evidence furnished to him under that section in order to determine whether such evidence conforms to the applicable requirements of the trust indenture.

68. A trustee under a trust indenture to which this Part applies and any associate of such trustee shall not be appointed a receiver or receiver and manager or liquidator of the assets or undertaking of the finance company that issued or guaranteed the capital securities under the trust indenture.

69. No person shall act as a trustee under a trust indenture unless the person has posted with the Commission a bond or other adequate security requiring the person to discharge the obligation set out in the trust indenture and the bond or other adequate security shall be in the same amount as would be required to be posted by a person or company appointed to act as administrator of an estate of the same size as the amount of capital securities to be outstanding under the trust indenture.

70. Sections 65, 66 and 67 do not apply to any trust indenture entered into before the coming into force of this Regulation.

6. Ontario Regulation 101/67 is amended by adding thereto the following forms:

Form 9a

The Securities Act, 1966

INFORMATION REQUIRED IN PROSPECTUS OF FINANCE COMPANY

ITEM 1. Distribution Spread:

The information called for by the following Table shall be given, in substantially the tabular form indicated, on the outside front cover page of the prospectus as to all securities being offered for cash (estimate amounts, if necessary).

TABLE

	COLUMN 1	COLUMN 2	COLUMN 3
	Price to public	Underwriting discounts or commissions	Proceeds to issuer or selling security-holder
Per unit...
Total.....

Instructions:

- Only commissions paid or payable in cash by the issuer or selling security holder or discounts granted are to be included in the Table. Commissions or other consideration paid or payable in cash or otherwise by other persons or companies and consideration other than discounts granted and other than cash paid or payable by the issuer or selling security holder shall be set out following the Table with a reference thereto in column 2 of the Table. Any finder's fees or similar payments shall be appropriately disclosed. Where debt securities are offered the price to the public, the underwriting discounts and commission and the proceeds to the finance company, except with the consent of the Director, shall be expressed as a percentage.
- If it is impracticable to state the price to the public, the method by which it is to be determined shall be explained. In addition, if the securities are to be offered at the market, indicate the market involved and the market price as of the latest practicable date.
- If any of the securities offered are to be offered for the account of existing security holders (secondary distribution), refer on the first page of the prospectus to the information called for by Instruction 3 to Item 23.
- With the consent of the Director the information called for by the Table may be given in narrative form.

ITEM 2. Plan of Distribution:

- (a) If the securities being offered are to be sold through underwriters, give the names of the underwriters. State briefly the nature of the underwriters' obligation to take up and pay for the securities.
- (b) Outline briefly the plan of distribution of any securities which are to be offered by the issuer, either as security issuers, or by means other than through underwriters.

Instructions:

1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell to the public. Conditions precedent to the underwriters' taking up the securities, including "market outs", need not be described except to the extent that such conditions precedent are not satisfied prior to the commencement of the sale of the securities to the public.
2. The word "issuer" as used in this item includes, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer and any person who has a dominant interest in the issuer or in whom the issuer has a dominant interest.
3. Instruction 1 to Item 8 applies to this item *mutatis mutandis*.

ITEM 3. Use of Proceeds to Issuer:

- (a) State the estimated net proceeds to be derived by the issuer from the sale of the securities to be offered, the principal purposes for which the net proceeds are intended to be used and the approximate amount intended to be used for each such purpose.
- (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

Instructions:

1. Details of proposed expenditures are not to be given except as otherwise required hereunder. If any substantial part of the proceeds has not been allocated for particular purposes, a statement to that effect shall be made together with a statement of the amount of the proceeds not so allocated.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, such statement need not be made if the underwriting arrangements are such that, if any securities are sold to the public, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of such other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of the indebtedness if the indebtedness was incurred within the two preceding years; otherwise, it will suffice to state that the proceeds are to be used to reduce or retire the indebtedness.

4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. State the cost of such assets to the issuer and the principle followed in determining such cost. State briefly the nature of the title to or interest in such assets to be acquired by the issuer. If any part of the consideration for the acquisition of any such assets consists of securities of the issuer, give brief particulars of the designation, number or amount, voting rights (if any) and other appropriate information relating to such class of securities, including particulars of any allotment or issuance of any such securities within the two preceding years.

ITEM 4. Sales Otherwise than for Cash:

If any of the securities being offered are to be offered otherwise than for cash, state briefly the general purposes of the issue, the basis upon which the securities are to be offered, the amount of compensation paid or payable to any person or company and any other expenses of distribution, and by whom they are to be borne.

Instruction:

If the offer is to be made pursuant to a plan of acquisition describe briefly the general effect of the plan and state when it became or is to become operative. As to any material amount of assets to be acquired under the plan, furnish information corresponding to that required by Instruction 4 to Item 3.

ITEM 5. Share and Loan Capital Structure:

Furnish in substantially the tabular form indicated, or where appropriate in notes thereto:

- (a) Particulars of the share and loan capital of the issuer.
- (b) Particulars of the loan capital of each subsidiary of the issuer (other than loan capital owned by the issuer or its wholly-owned subsidiaries) whose financial statements are contained in the prospectus on either a consolidated or individual basis.
- (c) The aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of the minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on a consolidated basis.
- (d) The aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of the minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements.
- (e) Disclose any potential dilution of the assets per share and earnings per share in a computation, giving effect to the current issue and to all existing options, warrants and conversion rights in relation to any capital security of the finance company.

2. Set out in a note to the Table a cross reference to any note in the financial statements containing information concerning the extent of obligations arising by virtue of leases on real property.
3. Individual items of indebtedness which are not in excess of 3 per cent of total assets as shown in the balance sheet referred to in column 3 may be set out in a single aggregate amount under an appropriate caption such as "Sundry Indebtedness".

5. Give particulars of the amount, general description of and security for any substantial indebtedness proposed to be created or assumed by the issuer or its subsidiaries, other than indebtedness offered by the prospectus.

7. For the purposes of column 3, in computing the amount of the minority interest in the subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements, such computation may be based on the financial statements of each such subsidiary contained in the prospectus.
8. In computing the minority interest in the subsidiaries for the purposes of column 4, the amount set out in column 3 may be used provided that appropriate adjustment is made to such amount to reflect any change in the percentage of ownership in the capital and surplus of any subsidiary by the minority interest.
9. The thirty-day period referred to in column 4 is to be calculated within thirty days of the date of the preliminary prospectus or the date of the prospectus filed under section 56, as the case may be.
10. The information to be set out in column 5 may be based upon the information contained in column 4, adjusted to take into account any amounts set out in column 4 to be retired out of the proceeds of the issue.

11. Where the amount outstanding as of a specific date within thirty days cannot be precisely calculated, so state; an estimated figure should be used, with a note indicating the basis of calculation and the reasons therefor.
12. In the case of short term notes issued on an agency basis, column 5 may, with the consent of the Director, be omitted.

ITEM 6. Operations of the Issuer:

Employing tabular form where appropriate, with such explanatory notes as are essential to an investor's appraisal of the securities being offered, set forth the following information in respect of the issuer, its subsidiaries and affiliates:

Maturity of Receivables

- (a) Set out a schedule of receivables showing receivables:
 - (i) due in the current financial year;
 - (ii) due within the next subsequent financial year;
 - (iii) due within the two years next thereafter; and
 - (iv) due at any later date.

Analysis of Outstanding Receivables

- (b) Give in tabular form, including, for example, wholesale, retail motor vehicle loans, wholesale, retail industrial, consumer loans, mortgages, leasing, business loans, dealer capital loans and any other type of loan constituting a significant class of business. Indicate the approximate amount and percentage of sales finance receivables covered by dealer endorsement or repurchase agreements.

Interest and Dividend Coverage Applicable to the Issue

- (c) Disclose the earnings which will be available to meet the interest and dividend requirements of the finance company according to the various classes and priorities of securities outstanding.

Interest Coverage

- (d) Show interest coverage:
 - (i) using the Prior Deduction Method;
 - (ii) using the Cumulative Deduction Method; and

- (iii) in the case of holding companies, include the dividend requirements on underlying preferred stock issues and minority interests as well as fixed charges on subsidiary debt.

Methods of Calculating Coverage

- (e) Where there are one or more classes of debt securities and one or more classes of preferred shares, both of the following formulas shall be used to calculate interest and dividend coverage:

(i) Net Earnings After Tax

Preferred Dividends

(ii) Net Earnings After Taxes But Before Interest

Interest + Preferred Dividends

Asset Coverage

- (f) Disclose, on a *pro forma* basis, the net assets available to cover the securities offered.

In calculating asset coverage, indicate the number of times net assets available will cover the claims of the issue plus all senior and equivalent claims.

ILLUSTRATION:

Coverage of Borrowed Funds	Asset Value Borrowed Funds
Coverage of 1st Preferred	Asset Value Borrowed Funds and 1st Preferred
Coverage of 2nd Preferred	Asset Value Borrowed Funds and 1st Preferred and 2nd Preferred

Funding Requirements

- (g) Show the aggregate current sinking fund requirements and maximum purchase fund requirements for the succeeding five years. Segregate this information according to the class and series of security covered. Do not repeat details given in the prospectus relating to the rights, privileges and preferences of each class of security ranking prior or *pari passu*. In addition, provide an analysis setting forth commitments which must be met both as to sinking fund requirements and the maturing of long term debt, indicating the amount due within,

- (i) one year;
- (ii) one year to two years;
- (iii) two years to three years;
- (iv) three years to five years;
- (v) five years to ten years; and

proposed issue. Include assets which will be due within the next twelve months and the liabilities payable within the same period. Where there is a deficiency in liquid capital, explain the significance thereof having regard to the financial structure, the mode of operation of the company, and the prior experience of the company.

- (i) If the effective tax rate is significantly less than is normally paid by finance companies generally, explain the principal reasons for such tax rate.
- (j) Indicate those subsidiaries and operations which have produced material operating losses within the preceding two financial years, giving details thereof.
- (k) Set out the amounts of the finance company's credit losses for each of the preceding five financial years and show such amounts as a percentage of liquidations, and of average outstandings.

Instructions:

- Where there is more than one class of debt, the Prior Deductions Method of calculating interest coverage consists of first deducting the carrying charges related to the senior issue(s) from available earnings and then calculating the number of times interest on the issue in question is covered by the remaining earnings. On the Cumulative Deductions Method the total carrying charges of all debt ranking ahead of or *pari passu* with the issue in question is divided into available earnings.
- In answering this item, give appropriate details of the quality, collectibility and arrears of receivables and include an age analysis of accounts receivable, and the percentage of receivables refinanced after being in arrears for periods from three months to in excess of eighteen months.

ITEM 7. Name and Incorporation of Issuer:

VARIETIES OF CORN

13. Except as otherwise determined by the Commission, acreage may be seeded only to varieties of corn recommended in Publication No. 296 of the Department of Agriculture and Food entitled "Field Crop Recommendations" for the area in which the seeded acreage is situate.

14. For the purpose of determining the loss in production of corn in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 15, 16 and 17.

STAGE 1

15.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to corn is completed to and including the 15th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the reseeding of the damaged acreage, provided that,
 - (i) the variety of corn reseeded is one prescribed by paragraph 13 for the area in which the damaged acreage is situate, and
 - (ii) the reseeding is completed not later than seven days after the date prescribed by Table 2 as the final date for seeding in the area in which the damaged acreage is situate; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is reseeded to corn in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage and the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$5 for each reseeded acre.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed after the Commission has consented thereto, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

- (a) 30 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per bushel.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

16.—(1) Stage 2 commences on the 16th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the amount by which 80 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the established price per bushel.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

17.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR TOTAL SEEDED ACREAGE

18. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

19.—(1) Where the actual seeded acreage of corn in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

8. Declaration of previous yields of corn:

(2) Where the insured person fails to satisfy the Commission under subsection 1, the Commission shall determine the average farm yield and shall reduce accordingly the total guaranteed production determined in accordance with section 9 and the maximum amount of indemnity for which it is liable under section 10, but no portion of the premium shall be refunded.

DURATION OF INSURANCE

2. The contract of insurance for soybeans is in force for the crop year in which it is made and continues in force for each crop year thereafter until it is cancelled or terminated in accordance with the regulations.

COVERAGE

3. The coverage provided for soybeans in each crop year is the lesser of,

- (a) 70 per cent of the average farm yield in bushels; or
- (b) the county average yield in bushels, as determined by the Commission in respect of the county in which the insured acreage is situate,

applied to the total acreage seeded to soybeans by the insured person in accordance with the regulations.

TOTAL GUARANTEED PRODUCTION

4. The number of bushels determined in accordance with paragraph 3 is the total guaranteed production of soybeans for a crop year.

INDEMNITY

5. The maximum indemnity payable for a loss in production of soybeans in a crop year is the amount obtained by multiplying the total guaranteed production by the price per bushel established in the plan.

PREMIUM

6. For each crop year in which the insured person seeds acreage to soybeans, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

7. In each crop year in which the contract of insurance is in force for soybeans, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

8. The crop year for soybeans is the period from the 1st day of March in any year to the 15th day of November next following.

SEEDING DATES

9. Soybeans shall be seeded not earlier than the 15th day of May, and not later than the 20th day of June, in a crop year.

HARVESTING OF SEEDED ACREAGE

10.—(1) All acreage seeded to soybeans in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 15th day of November or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any seeded acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

(5) Where, with the consent of the Commission under subparagraph 1, any seeded acreage is used for a purpose other than harvesting, the Commission shall determine the potential production of such acreage, and such potential production shall be taken into account in the final adjustment of loss.

11.—(1) On receipt of a notice under subparagraph 3 of paragraph 10, the Commission shall determine,

- (a) the number of unharvested acres and the potential production thereof; and
- (b) whether the harvesting of the seeded acreage was prevented by reason of one or more of the causes of loss insured against.

(2) Where the Commission determines that harvesting of any seeded acreage was prevented by reason of one or more of the causes of loss insured against, the Commission may extend the time for harvesting of the seeded acreage for such period as it deems proper.

VARIETIES OF SOYBEANS

12. Except as otherwise determined by the Commission, acreage may be seeded only to varieties of soybeans recommended in Publication No. 296 of the Department of Agriculture and Food entitled "Field Crop Recommendations" for the area in which the seeded acreage is situate.

EVALUATION OF LOSS

13. For the purpose of determining the loss in production of soybeans in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 14, 15 and 16.

STAGE 1

14.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to soybeans is completed to and including the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the reseeded of the damaged acreage, provided that,
 - (i) the variety of soybeans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and
 - (ii) the reseeded is completed not later than the 20th day of June; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is reseeded to soybeans in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage and the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$5 for each reseeded acre.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

- (a) 30 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per bushel.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

15.—(1) Stage 2 commences on the 21st day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

- (3) Where,
 - (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
 - (b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the amount by which 90 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the established price per bushel.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

16.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR
TOTAL SEEDED ACREAGE

17. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual seeded acreage of soybeans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of soybeans in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

5. The maximum indemnity payable for a loss in production of white beans in a crop year is the amount obtained by multiplying the total guaranteed production by the price per pound established in the plan.

PREMIUM

6. For each crop year in which the insured person seeds acreage to white beans, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

7. In each crop year in which the contract of insurance is in force for white beans, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

8. The crop year for white beans is the period from the 1st day of March in any year to the 20th day of October next following.

SEEDING DATES

9. White beans shall be seeded not earlier than the 20th day of May, and not later than the 25th day of June in a crop year.

HARVESTING OF SEEDED ACREAGE

10.—(1) All acreage seeded to white beans in a crop year shall be harvested as white beans unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 20th day of October or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any seeded acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

11.—(1) On receipt of a notice under subparagraph 3 of paragraph 10, the Commission shall determine,

- (a) the number of unharvested acres and the potential production thereof; and
- (b) whether the harvesting of the seeded acreage was prevented by reason of one or more of the causes of loss insured against.

(2) Where the Commission determines that harvesting of any seeded acreage was prevented by reason of one or more of the causes of loss insured against, the Commission may extend the time for harvesting of the seeded acreage for such period as it deems proper.

VARIETIES OF WHITE BEANS

12. Except as otherwise determined by the Commission, acreage may be seeded only to varieties of white beans recommended in Publication No. 296 of the Department of Agriculture and Food entitled "Field Crop Recommendations" for the area in which the seeded acreage is situate.

EVALUATION OF LOSS

13. For the purpose of determining the loss in production of white beans in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 14, 15 and 16.

STAGE 1

14.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to white beans is completed to and including the 25th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, there shall be no loss calculation to be taken into account in the final adjustment of loss in respect of the total seeded acreage but the value of the crop shall progress into Stage 2, and the provisions of paragraph 15 shall apply, unless,

(a) the Commission consents in writing, upon application in writing by the insured person, to reseeding of the damaged acreage, on condition that,

(i) the variety of white beans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and

(ii) the reseeding is completed not later than the 25th day of June or such other date as may be approved by the Commission; or

(b) the Commission consents in writing, upon application in writing by the insured person, to use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where reseeding of damaged acreage is completed in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the total seeded acreage shall be deemed to be reduced, and the guaranteed production, amount of insurance, and premium shall be reduced proportionately.

STAGE 2

15.—(1) Stage 2 commences on the 26th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) reseeding of the damaged acreage, on condition that,

(i) the variety of white beans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and

(ii) the reseeding is completed on a date approved by the Commission,

and, in such case, the contract of insurance shall continue to apply to such reseeded acreage; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage

and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

(a) the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with clause *b* of subparagraph 2; or

(b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying by the established price per pound the amount by which 80 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

16.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR TOTAL
SEEDED ACREAGE

17. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual seeded acreage of white beans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of white beans in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

3.—(1) In this section, "patient" includes a former patient of a psychiatric facility.

(2) No person shall have access to the records of a patient unless he has the authority of the officer-in-charge.

(3) No disclosure shall be made from the records of a patient without the authority of the officer-in-charge.

(4) The officer-in-charge may disclose or authorize the disclosure of information from the records of a patient,

(6) The provisions of this section apply notwithstanding that any information disclosed under the authority of this section is confidential or privileged and no action shall be instituted against the person who discloses it unless its disclosure is made maliciously or without reasonable or probable cause.

MAINTENANCE

4.—(1) The minimum rate for which a patient, his estate or the person liable for his maintenance is liable in the general wards of any institution is \$2 a day and, where the patient's condition requires special care and treatment, such further charges may be made as the officer-in-charge determines.

(2) The rate does not include clothing and the cost of clothing is an additional charge upon the patient, his estate or the person liable for his maintenance.

5. In any institution having private or semi-private wards, the rate for which a patient, his estate or the person liable for his maintenance is liable shall be determined in each case by the officer-in-charge, and the rate shall be based on the accommodation, care and treatment provided for the patient.

6. Where the maintenance of a patient occupying a private or semi-private ward is one-quarter in arrears and remains unpaid, the officer-in-charge may transfer the patient to a general ward and shall notify the surety or the person liable for the maintenance of his action and of the amount due and owing.

7.—(1) Where there is an amount due and owing for the maintenance of,

(a) a former patient who,

(i) has been discharged and is not a resident mentioned in Ontario Regulation 191/68, or

(ii) has died in a hospital; or

(b) a patient for whose maintenance a person is liable under section 76 of the Act and that person has died,

such amount, except as otherwise provided, shall be limited as prescribed by subsection 2.

(2) Subject to subsection 3, the amount payable in full satisfaction of the amount due and owing for maintenance mentioned in subsection 1 is limited to that accruing in the period of ten years immediately preceding the date of death or the date of discharge, as the case may be.

(3) Where the amount paid during the ten year period mentioned in subsection 2 exceeds the amount accruing during that period, the excess shall be applied upon any amount accruing prior to that period.

8.—(1) In this section,

(a) "debtor" means a person who is liable for maintenance under the Act;

(b) "dependant" means,

(i) a child under twenty-one years of age who is not in receipt of a taxable income or a child who is over twenty-one years of age but dependent because of disability and who is not in receipt of a taxable income, or

(ii) a widow or widower who is not in receipt of a taxable income;

(c) "net value" means the value of the property of a deceased debtor passing on his death after deducting,

(i) funeral and interment expenses,

(ii) testamentary expenses including surrogate, probate and other like court fees paid by the estate in respect of the death of the deceased, and

(iii) the legal debts of the deceased other than the amount that is due and owing for maintenance;

(d) "taxable income" means taxable income as determined under the *Income Tax Act* (Canada).

(2) The Deputy Minister may give a discharge for the amount due and owing for maintenance where the amount computed as prescribed by section 7 has been paid.

(3) Where the debtor dies leaving a dependant or dependants, and the net value of the estate after deducting \$5,000 therefrom is less than the amount that is due and owing for maintenance, the amount that is owing for maintenance shall be deemed to be fully paid and satisfied upon payment of the balance of the net estate after deducting \$5,000 therefrom and the Deputy Minister may give a discharge in full.

(4) Where the debtor dies leaving no dependant and the amount that is due and owing for the maintenance exceeds the value of the estate, the Deputy Minister may give a discharge for the amount that is due and owing upon payment of the balance of the estate after deducting,

(a) funeral and interment expenses; and

(b) testamentary expenses including surrogate, probate and other like court fees paid by the estate in respect of the death of the deceased.

(5) Before giving a discharge under this section, the Deputy Minister or an officer of the Department designated by him may require the applicant for the discharge to submit a copy of the affidavit of value and relationship filed under *The Succession Duty Act*, an affidavit of the debts of the deceased debtor and such other information as is necessary for the purposes of this section.

9. When a patient has been discharged from an institution and admission is again applied for on behalf of the patient, the officer-in-charge shall, where possible, obtain renewal of the bond for maintenance or a new bond.

10. Except as provided by sections 7 and 8, nothing in this Regulation shall be construed to relieve any person or persons or property from liability for the maintenance of any patient, and the execution of any bond or agreement for the payment of maintenance shall not have any such effect or in any way interfere with or prevent any other remedies for the recovery of moneys owing for the maintenance of a patient at the full rate of maintenance.

APPROVED HOMES

11.—(1) The Department may pay an amount of \$28 a week for the care and maintenance of patients in an approved home.

(2) Where special care and maintenance are required by a patient, the Department may pay a weekly amount in excess of \$28.

(3) Where a mentally defective patient who requires nursing care is a patient in an approved home, the Department may pay an amount not exceeding \$8.50 a day for his care and maintenance.

12. Where a patient is in an approved home, the patient, his estate or the person liable for his maintenance is liable for the amount mentioned in section 11 and the cost of his clothing.

13. In sections 11 and 12, "patient" includes a former patient.

14. In sections 15 to 23, both inclusive, "employee" means a full-time or part-time employee of an institution other than an employee of an approved home connected with the institution.

15.—(1) Every employee shall receive an intra-dermal tuberculin test and x-ray film of the lungs within one week after the commencement of his employment unless the employee presents the institution with satisfactory proof of the taking of such tests within three months preceding the commencement of his employment.

(2) Every employee who has a negative tuberculin reaction shall receive an additional tuberculin test within six months of the date of the first test and shall receive successive tests within six months of the date of each test where the result of the test is negative.

(3) Every employee who has a positive tuberculin reaction on his first test shall receive an x-ray film of the lungs forthwith and every twelve months thereafter.

(4) Subject to section 16, where an employee has a negative reaction to his first tuberculin test and a positive reaction to any subsequent test, he shall receive an x-ray film of the lungs forthwith after such test and every three months for the next year, an additional x-ray film in six months thereafter and an additional x-ray film every twelve months thereafter.

(5) Every employee whose x-ray film shows evidence of abnormal shadowing shall forthwith receive further examination to determine the nature of the disease.

(6) No tests other than the intra-dermal (Mantoux) test, using one-twentieth of a milligram of Old Tuberculin, shall be used for the tests required by this section.

16. Where an employee is found to have developed a positive tuberculin reaction because of the administration of Bacillus Calmette-Guerin Vaccine, the employee shall receive an x-ray film of the lungs forthwith after developing the positive reaction and every twelve months thereafter, as long as the tuberculin sensitivity remains.

17. Notwithstanding subsection 6 of section 15, where an employee produces a certificate by a duly qualified medical practitioner stating that the intra-dermal (Mantoux) test causes an unusually severe reaction in the employee, the intra-dermal test shall not be performed on that employee, but he shall receive an x-ray film of the lungs within one week after the commencement of his employment and every twelve months thereafter.

18. No employee found to be suffering from active tuberculosis shall be permitted to work in the institution and the officer-in-charge shall report the case within twenty-four hours to the medical officer of health of the municipality in which the employee resides and to the medical officer of health in the municipality in which he is employed.

19.—(1) Where an employee shows evidence of tuberculosis, the officer-in-charge shall give to the Workmen's Compensation Board and to the Department written notice thereof, including a complete report of the medical findings within seven days of the time of diagnosis.

(2) Every officer-in-charge shall keep a permanent record of all examinations and tests of every employee of the institution and, if requested, shall send a copy of any record, including the x-ray films, to the Workmen's Compensation Board or to the Department.

(3) The permanent record of all examinations and tests referred to in subsection 2 shall be kept by the officer-in-charge for three years after the employee ceases to be employed in the institution.

(4) Any officer of the Workmen's Compensation Board who is authorized by its chairman may inspect the medical records of an employee at any time.

20. The institution is responsible for all examinations for tuberculosis of an employee and none of the expenses thereby incurred are payable by the employee.

21. No employee shall be detailed to care for a patient believed or suspected to be suffering from tuberculosis until the employee has received instructions as to the necessary technique to protect himself and others against infection and, where possible, the employee so detailed shall be a positive reactor to the tuberculin test.

22. Upon ceasing to be employed, every employee who has been employed for four or more months shall receive an x-ray film of the lungs and a non-reactor shall also receive a tuberculin test.

23. Nothing contained in sections 14 to 22, both inclusive, shall prevent any person from being employed in an institution when his tuberculosis is inactive.

24. Where a medical practitioner believes or suspects that a person admitted to an institution is suffering from tuberculosis, he shall notify the officer-in-charge forthwith.

An applicant for a certificate of apprenticeship or a certificate of qualification who fails to pass on rewriting the examination referred to in section 17 on two occasions shall attend and complete such training courses as the Director may determine before being permitted to rewrite the examination a third time.

19. Where an applicant for a certificate of qualification who is not the holder of a certificate of apprenticeship in the trade, supplies evidence satisfactory to the Director of having been continuously engaged in the trade as a journeyman in Ontario or elsewhere for a period of equal to or greater than the apprenticeship period prescribed for the trade, the Director may issue to the applicant a provisional certificate of qualification valid until the expiry date specified thereon.

20. Where an applicant for a certificate of qualification referred to in section 19 passes such examination as is prescribed by the Director, the Director may, upon payment of the prescribed fee, issue to the applicant a certificate of qualification.

21. A provisional certificate of qualification shall be in Form 8.

22.—(1) Unless otherwise prescribed by regulation, a certificate of qualification expires one year after the date of its issue.

(2) A certificate of qualification may be renewed by the holder upon application and payment of the prescribed fee to the Director.

(3) Upon renewal of a certificate of qualification, a seal provided by the Director indicating the year for which the certificate is renewed shall forthwith upon its receipt by the applicant be affixed to the certificate of qualification in the space provided thereon.

23.—(1) Subject to subsections 2 and 3, where a person fails to renew his certificate of qualification on or before the date of its expiry, the Director may renew the certificate upon payment of the prescribed fee for renewal thereof together with the additional fee prescribed for each year it was not renewed.

(2) Where a certificate of qualification is not renewed within three years of the date of its expiry, the Director shall not renew the certificate unless the applicant has passed an examination prescribed by the Director.

(3) Notwithstanding subsection 1, where the Director is satisfied that the failure to renew the certificate of qualification was due to illness or other cause beyond the control of the person whose certificate has expired, the Director may dispense with payment of any fee payable for the period during which the certificate was not renewed.

24.—(1) The Director may suspend or cancel a certificate of qualification,

(a) where the holder is convicted of an offence under the Act or the regulations; or

(b) where the Director has reasonable grounds to believe that the holder is without capacity or not competent to perform work in the trade with reasonable skill.

(3) The Director shall allow seven clear days between the date of service or mailing of the notice and the date of the hearing.

(4) If the holder of the certificate of qualification fails to attend the hearing on the date and at the time and place appointed, the hearing may proceed and a decision may be made in his absence.

(2) The Minister or such other person designated by him shall set the date, time and place for the hearing of the appeal, and notice of such hearing shall be served personally or sent by registered mail to the person appealing.

(3) If the person appealing fails to attend the hearing of the appeal on the date and at the time and place appointed, the hearing may proceed and a decision may be made in his absence.

(4) At the hearing of the appeal, the person appealing shall be entitled to be represented by counsel or by an agent, and to hear the evidence, to cross-examine, to call witnesses and to present argument.

(5) The Minister or such other person designated by him shall hear the evidence and submissions and may uphold the decision of the Director or suspend, cancel or re-instate the certificate of qualification.

(6) The decision of the Minister or such other person designated by him shall be final and binding.

26. A person whose certificate of qualification has been cancelled may apply for a new certificate of qualification upon such terms and conditions as the Director may prescribe, and the Director may issue a certificate of qualification where he is satisfied that the person has complied with such terms and conditions, and has the capacity and competence to perform work in the trade with reasonable skill.

27. Where a person proves to the satisfaction of the Director that he has lost his current certificate of qualification, the Director shall issue to him a duplicate certificate of qualification upon payment of the prescribed fee.

- (a) bring the motorized snow vehicle to a complete stop; and
- (b) upon entering the roadway yield the right of way to all oncoming traffic which constitutes a hazard.

(2) The driver referred to in subsection 1 shall enter or cross at an angle of approximately 90 degrees to the direction of the roadway.

6.—(1) The driver of a motorized snow vehicle intending to turn to the right into an intersecting highway shall approach such intersection and turn as closely as practicable to the right curb or edge of the roadway.

(2) The driver of a motorized snow vehicle within an intersection intending to turn to the left across the path of any vehicle or motorized snow vehicle approaching from the opposite direction shall not make such left turn until he has afforded a reasonable opportunity to the driver or such other vehicle or motorized snow vehicle to avoid a collision.

(3) The driver of a motorized snow vehicle intending to turn to the left into an intersecting highway at an intersection where traffic is permitted to move in both directions on each highway entering the intersection shall approach such intersection as closely as

practicable to the centre line of the highway and the left turn shall be made by passing to the right of such centre line where it enters the intersection, and upon leaving the intersection by passing to the right of the centre line of the highway then entered.

No motorized snow vehicle shall be driven to the left of the centre of a roadway designed for one or more lines of traffic in each direction, when approaching the crest of a grade or upon a curve in the roadway or within 100 feet of a bridge, viaduct or tunnel where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle or motorized snow vehicle might approach from the opposite direction, but this section does not apply to a highway designated for the use of one-way traffic or to a highway divided into clearly marked lanes where there are more such lanes for traffic in one direction than in the other direction.

12.—(1) Subject to subsection 2, the driver of a motorized snow vehicle may overtake and pass to the right of another vehicle or motorized snow vehicle on a highway only,

(2) Subsection 1 does not apply to a roadway within a city, town or village, and the provisions of subsection 1 with respect to parking, standing or stopping do not apply to a portion of a roadway in respect of which a by-law passed by the council of a township or county or by the trustees of a police village prohibiting or regulating parking, standing or stopping on the roadway, as the case may be, is in force.

STANDARDS FOR SYSTEMS OR DEVICES

4. Where a system or device is installed on or incorporated in a new motor vehicle or a new motor vehicle engine, such system or device, in its operation or function, shall meet the requirements of section 6 and,

- (a) shall not cause emission into the outdoor atmosphere of any air contaminant or contaminants that would not be emitted into the outdoor atmosphere during the operation of such motor vehicle or motor vehicle engine if the motor vehicle or motor vehicle engine were not equipped with such system or device; and
- (b) shall not result in any unsafe condition endangering persons or property.

CRANKCASE EMISSIONS

5.—(1) Where a new motor vehicle or new motor vehicle engine is operated in Ontario, the crankcase of the motor vehicle engine shall be constructed in such manner and maintained in such condition that no crankcase emissions are discharged into the outdoor atmosphere.

(2) The manufacturer of any new motor vehicle or new motor vehicle engine on or in which a system or device is installed or incorporated to comply with the requirements of subsection 1 shall test or cause to be tested as many motor vehicles and motor vehicle engines as are required to ensure that the motor vehicles or motor vehicle engines meet the requirements of subsection 1 for not less than one year after sale and delivery to the ultimate purchaser.

EXHAUST EMISSIONS

6.—(1) Where a new motor vehicle or a new motor vehicle engine is operated in Ontario, the hydrocarbon and carbon monoxide content of the exhaust emissions shall not exceed,

- (a) where the engine displacement is at least 50 cubic inches but not more than 100 cubic inches,
 - (i) 410 parts per million by volume of hydrocarbons, or
 - (ii) 2.3 per cent by volume of carbon monoxide;
- (b) where the engine displacement is more than 100 cubic inches but not more than 140 cubic inches,

 - (i) 275 parts per million by volume of hydrocarbons, or
 - (ii) 1.5 per cent by volume of carbon monoxide.

(2) The requirements of subsection 1 apply to composite values calculated under section 8 from results obtained in tests of exhaust emissions from the operation of the new motor vehicles and new motor vehicle engines in accordance with the test procedures set out in section 7.

(3) Where the composite value calculated under section 8 for a motor vehicle having a motor vehicle engine of a specified engine displacement does not exceed the amounts of hydrocarbons and carbon monoxide set out in subsection 1, every motor vehicle having a motor vehicle engine of the same specified engine displacement shall be deemed to comply with the requirements of subsection 1.

7.—(1) For the purposes of this section,

- (a) where the records of a manufacturer of his sales in Ontario of motor vehicles in any year are not available or are inadequate for the selection of new motor vehicles and new motor vehicle engines for a model year for testing under subsection 2, the manufacturer shall make selections of new motor vehicles and new motor vehicle engines on the basis of his total sales of motor vehicles and motor vehicle engines; or
- (b) where any motor vehicle manufacturer is subject to the terms and conditions of the Canada-U.S. Automotive Products Trade Agreement, he may, when selecting new motor vehicles and new motor vehicle engines for a model year for testing under subsection 2 base his selection on the records of his sales for the area covered by the Agreement.

(2) Procedures for testing and inspecting systems or devices installed on or incorporated in new motor vehicles and new motor vehicle engines to prevent or lessen the emission into the outdoor atmosphere of any air contaminant or contaminants from the operation of such new motor vehicles or new motor vehicle engines, shall be as follows:

1. Where a manufacturer of new motor vehicles and new motor vehicle engines intends to sell, offer or expose for sale in any model year a new motor vehicle having a new motor vehicle engine, he shall select, from his manufacture of such motor vehicles and motor vehicle engines, for testing of exhaust emissions,
 - (a) at least two such motor vehicles having motor vehicle engines of the same engine displacement; and
 - (b) where the probable sales volume of new motor vehicles having motor vehicle engines of a specified engine displacement will account for at least one-half of one per cent of the total number of new motor vehicles sold in Ontario in the latest preceding model year of the manufacturer for which sales records in Ontario are available, at least four new motor vehicles having motor vehicle engines of the same engine displacement,

but in no case shall the total number of new motor vehicles having new motor vehicle engines be fewer than four.

2. New motor vehicles used for the testing of the new motor vehicle engines shall be those vehicles in which the manufacturer usually installs such engines and shall be equipped as nearly as possible with transmission and carburetors in proportion to the number of comparable motor vehicles so equipped in the latest preceding model year of the manufacturer for which his sales records in Ontario are available.
3. Where under paragraph 2, a manufacturer makes tests of new motor vehicles having new motor vehicle engines and installs a combination of engine and transmission system in more than one model of motor vehicles, only one series of tests of exhaust emissions is required, but, where the combination of such engine and transmission system in any new motor vehicle may increase the amount of hydrocarbons and carbon monoxide in the exhaust emissions, tests are required in respect of each motor vehicle.
4. Each new motor vehicle having a new motor vehicle engine to be tested for amounts of hydrocarbons and carbon monoxide in exhaust emissions shall be driven a distance of at least 4,000 miles and tests shall then be made for the amounts of hydrocarbons and carbon monoxide in the exhaust emissions, each test being of the motor vehicle running on a dynamometer and the motor vehicle engine for each test being run from a cold start through seven identical testing cycles without stalling of the motor vehicle engine and with each cycle lasting 137 seconds and consisting of a series of periods of acceleration, deceleration, steady speeds and idling.
5. The hydrocarbon and carbon monoxide content of the exhaust emissions referred to in paragraph 4 shall be measured for each period of the seven testing cycles and shall be recorded in respect of each motor vehicle engine

so that a value, representative of the hydrocarbon and carbon monoxide content in the exhaust emissions during the periods of the seven testing cycles, is obtained for that engine for the purposes of section 8.

6. In addition to the selection of new motor vehicles having new motor vehicle engines for testing of exhaust emissions under paragraphs 1 to 5, the manufacturer shall select not fewer than four and not more than ten motor vehicles for tests of durability of the systems or devices or of the exhaust emission system and in the selection he shall have regard to the combinations of engine displacements and transmissions, including automatic and manual transmission installations, so that his selections represent at least 70 per cent of the number of motor vehicles sold by the manufacturer in Ontario during his latest preceding model year for which his sales records in Ontario are available, but where his records show that the total number of motor vehicles sold by him in Ontario is less than 10 per cent of the total sales in Ontario of all manufacturers, the combinations shall be so chosen that the number of motor vehicles tested for durability of the systems or devices or of the exhaust emission systems represents at least 50 per cent of the number of motor vehicles sold by the manufacturer during that latest preceding model year, but in no case shall the number of motor vehicles so tested be fewer than four.

7. Every new motor vehicle having a new motor vehicle engine tested under paragraph 6 shall be driven a distance of at least 50,000 miles and tested in the manner referred to in paragraphs 4 and 5, the tests to be carried out on each motor vehicle at intervals of not more than 4,000 miles and the results from such tests shall be recorded.

8. From the results recorded under paragraph 7, a value shall be calculated for the hydrocarbon and carbon monoxide content of the exhaust emissions and the representative values thus obtained shall be used in the calculation of the factor mentioned in paragraph 5 of section 8.

8.—(1) Where recording is made under section 7 of results of tests for amounts of hydrocarbons and carbon monoxide in exhaust emissions in respect of any new motor vehicle having a new motor vehicle engine, a composite value shall be determined under subsection 2 that takes into account factors of deterioration in efficiency of the system or device, resulting from the use of that new motor vehicle and new motor vehicle engine, in accordance with the procedures under subsection 2.

(2) The procedures for calculation of the composite value of hydrocarbons and carbon monoxide in the exhaust emissions of each new motor vehicle tested under section 7 shall be as follows:

1. The representative values recorded in respect of all motor vehicles and motor vehicle engines tested under paragraphs 7 and 8 of section 7, shall be averaged for the following mileage intervals:

- i. 4,000 to 12,000 miles.
- ii. 12,000 to 24,000 miles.
- iii. 24,000 to 36,000 miles.
- iv. 36,000 to 50,000 miles.

2. The result of all tests for amounts of hydrocarbons and carbon monoxide in exhaust emissions recorded in respect of all motor vehicles and motor vehicle engines, tested under paragraphs 4 and 5 of section 7, shall be averaged.

3. The values of the averages of the hydrocarbon concentrations and the carbon monoxide concentrations obtained under paragraphs 1 and 2 at the average number of miles travelled shall be used to obtain two graphs, one for hydrocarbons and one for carbon monoxide, by plotting the average hydrocarbon values and the average carbon monoxide values against the average number of miles travelled by the motor vehicle.

4. On each of the graphs mentioned in paragraph 3, a straight line shall be drawn as near as possible to the points plotted on the graphs and the line shall project a sufficient length to allow readings for emission levels at each of 4,000 miles and 50,000 miles.

5. The factors in respect of hydrocarbons and carbon monoxide for deterioration in efficiency of the systems or devices installed on or incorporated in the new motor vehicles and new motor vehicle engines tested shall be in accordance with the following formula:

$$\text{factor} = \frac{\text{exhaust emissions extrapolated to 50,000 miles}}{\text{exhaust emissions extrapolated to 4,000 miles}}$$

6. The results of all tests of exhaust emissions to determine amounts of hydrocarbons and carbon monoxide under paragraphs 4 and 5 of section 7 for motor vehicles having motor vehicle engines of the same engine displacement shall be averaged.

7. For each engine displacement the composite value mentioned in subsection 1 shall be obtained by multiplication of the hydrocarbon factor or the carbon monoxide factor described in paragraph 5, as the case may be, by the amount of the average obtained under paragraph 6.

27.—(1) Where,

(a) a municipality is a party; and

(b) an engineer who has reported to the municipality in respect of the drainage works is present,

the referee may, at the commencement of a hearing and before any evidence is tendered, call upon the engineer to give evidence in respect of such matters within his knowledge as the referee considers likely to be of assistance in delineating the issues in dispute, and the engineer when called upon by the referee shall be regarded as an expert witness called by the court and shall not, while giving the evidence, be eligible to be examined or cross-examined by any of the parties.

(2) Where an engineer is called upon to give evidence under subsection 1 by the referee, the engineer is eligible to be called upon at a later stage of the hearing as a witness for any party to the proceedings.

28. An application to set aside any proceedings because of irregularity shall be made within thirty days and the referee may disallow such an application where the party making the application has taken a fresh step after knowledge of the irregularity.

29. Unless the referee otherwise orders, there shall be at least seven clear days between the service of a notice of a motion and the day for a hearing.

30. The referee may increase or decrease the time appointed by these Rules, or fixed by order, for doing any act or taking any proceedings upon such terms as the referee deems just, and any increase or decrease of time may be ordered although the application for the increase or decrease is not made until after the expiration of the time appointed or allowed.

31. Every county court clerk shall, at the request of any party and upon receiving a *praecipe* for the purpose and payment of the necessary postage and express charges for the transmission and return of the same, transmit to the referee the proceedings on file in his office.

32. Unless by consent of the parties or by leave of the referee, no trial shall take place or motion be heard during the long vacation or the Christmas vacation as prescribed in section 179 of Regulation 396 of Revised Regulations of Ontario, 1960, being the Rules of Practice and Procedure of the Supreme Court of Ontario.
